

Machine Learning

Dr Lương Thái Lê

People Involved

- Instructor:
 - Lương Thái Lê
 - Faculty: Information Technology; Computer Science
 - Venue: 309 A9
 - Email: luongthaile80@gmail.com
 - Phone: 0973223450 (Zalo)

Objective of the Course

- Providing learners with general knowledge, concepts of machine learning, the process of building a machine learning system
- Introduce some problems in machine learning (regression, classification) and some classic machine learning algorithms (Decision tree, Naïve Bayes,...)
- Number of credits: 3
 - Theory: 30
 - Discuss: 15
 - Practice: 15

Course Outline

1. Overview
2. Decision Tree
3. Naïve Bayes
4. Support Vector Machines and Boosting
5. Neural Network
6. Genetic Algorithm

Evaluation

- Point of the course = 50% point of the process + 50% point of the final exam
- Point of the process = 10% attendance + 25% practise + 15% representation a paper (by group)
- Point of the final exam: Practise + Q&A
